

Please do not vote yes to further media consolidation and merger!
As an American citizen I already feel shortchanged when it comes to getting the news, both domestic and foreign, in an unbiased and apolitical manner. The very idea that these mergers will enhance the media outlets by giving ordinary Americans more "choice" is absurd. The very idea of an expanded "Fox-like" news atmosphere is sickening!

I must tell you I have had to seek out alternative news networks on a global scale to get any real and meaningful news that tells the truth. You mock and discredit the very amendment that was created to protect the media!
